

Legacy Park Central" Apartments

Luxury Apartments with Convenient BART and Downtown Access

"Legacy Park Central" is a new luxury apartment complex , developed by Legacy Partners, located on a 4.6-acre site in downtown Concord . The project benefits from being within walking distance to BART, downtown office buildings, downtown retail, Brenden Theatres and Todos Santos Plaza . The site fronts Galindo Street and is situated between Laguna Street and Clayton Road , across from the Police Headquarters.

The apartment complex consists of 259 units, housed in two four-story buildings. The unit mix includes 140 one-bedroom units, 99 two-bedroom units, 12 three-bedroom units and 8 townhouse-style units. The units range in size from 609 to 1,598 square feet, with over half larger than 1,000 square feet.

The complex features amenities such as an extensive clubhouse with an exercise facility, swimming pool, spa and decks, all surrounded by attractive landscape. Additionally, each of the two residential buildings "wraps around" a four-story parking garage that allows residents to drive up to the floor of their units. This gives renters the convenience of carrying groceries and other daily necessities directly to their unit, instead of using elevators or stairs.
