Disclaimer

The following residential properties participated in the City of Concord's Lead Hazard Control Program and were evaluated and found to be "lead safe" in the month shown. At that time, the house or apartment unit(s) had no deteriorated lead-based paint and no lead-contaminated dust. To remain lead safe, owners must appropriately maintain the property using lead safe practices and occupants must not perform activities that create lead hazards. The City of Concord cannot guarantee that these housing units continue to be free of lead paint hazards.
