

## Work Requiring a Permit (Single Family and Duplex Residential Projects)

**Information Bulletin**  
**No. IB-022**  
**Effective:** June 2, 2014  
**Revised:** February 15, 2018  
**By:** Chief Building Official  
**For Public Use**

City of Concord • Community and Economic Development • 1950 Parkside Drive, MS/51 • Concord, CA 94519 • (925) 671-3107 • Fax (925) 680-4877

All new installations listed below **require permits**. Note this is not a complete list of all items which require permits. If your item is not listed, feel free to call the Building Division at (925) 671-3107. Permits **required** for replacement items are also indicated. The following lists(s) contain information on required permits: however, all work, regardless of whether or not a permit is required, **shall comply with the City's Construction Codes and Development Standards**.

Notes:

- 1: One-story detached accessory structure, provided that the floor area does not exceed 120 square feet does NOT required a building permit. However if structure is taller than 6 feet it needs planning approval.
- 2: Property line setbacks in accordance with the current planning code still need to be met.
- 3: Fences located within the front yard setback cannot exceed 3' in height.
